2X4 MESH PANEL DOG KENNEL ASSEMBLY INSTRUCTIONS

KENNEL W/COVER

ASSEMBLY INSTRUCTIONS

Step 1 – SITE CHOICE AND GROUND PREPARATION

Locating a flat and level assembly area for your kennel will insure that your kennel is a safe home for your pet. Insure the site is clear of foreign objects and is protected from sun and other weather elements that may be harmful to your pet. For the 10'x10' version you will have 2 panels attached for back, 1 panel and 1 gate for the Front.

Step 2 – PANEL ASSEMBLY

Starting at the back of your kennel, have a friend hold up the panel while you bolt one side panel into place.

Note: The back and front panels will establish the width of your Kennel.

Step 3 – Installing Gate/Latch

Once you have determined if your gate will latch on the left or right side, bolt into place and install the latch. When installing your latch, insure it is firmly tightened so it does not turn on the frame.

Note: Adding a secondary safety chain can give you added confidence that your pet is safe at home while you are away. You may also choose to add a self tapping screw into the hole under the U bolt location prior to tightening the U bolt to the flange.

Step 4 – EXTREMELY IMPORTANT!!!!

Pet/companions are very comfortable in the safety enclosure: however, it is suggested that there be a brief introduction period to acclimate your pet/companion. To begin this process, place your pet in the kennel for short periods of time (10-20 minutes) throughout the day while you are able to observe their behavior. If your pet begins to show signs of discomfort or nervousness (e.g., barking or whining) administer verbal correction from a distance. As the training continues, gradually increase the duration of stays inside the kennel until the pet has become completely comfortable with their new surroundings. Providing play things for your pet/companion will also comfort them. Also, insure that clean and adequate water and food is available at all times. REMEMBER, verbal and physical affection will aid your pet/companion to be completely satisfied with their new safety enclosure.

LIMITED EXPRESS WARRANTY

Jewett Cameron warranties your Kennel to be free of Defects in workmanship and further warrants that under normal use will be free of Problems for one full year from date of purchase by original purchaser.

JEWETT CAMERON WILL NOT HAVE OTHER OR GREATER LIABILITY FOR DEFECTS NOR WILL JEWETT CAMERON HAVE ANY LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states do not allow the exclusion or limitation of incidental or consequential Damages, so the above limitation or exclusion may not apply to you. If you discover a defect in the kennel during the warranty period and wish to obtain replacement parts or have questions send notice of claim to:

Jewett Cameron Companies
32275 NW Hillcrest
North Plains, OR 97133

Include your return address and a copy of the original invoice or further proof of the date of purchase plus a description of the claimed defect.

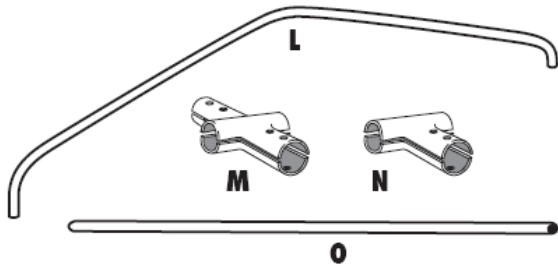

All implied warranties of merchantability and fitness for particular purpose are limited in duration to one (1) year from date of purchase. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which may vary from state to state.

The staff and management of Jewett Cameron would like to thank you
For your purchase of our products.

OPTIONAL: WEATHERGUARD™ KENNEL COVER AND FRAME INSTALLATION INSTRUCTIONS

Parts L-O

	Hi-Rise	5'x5'	10'x5'	15'x5'	10'x10'
L A-Frame Gable Supports	2	2	3	4	3
M Two-Way End Clamps	2	2	2	2	2
N Three-Way Center Clamps	0	0	1	2	1
O Center Ridge Poles	1	1	2	3	2
P Elastic Tie Downs (not shown)	8	8	12	14	14

STEP #1

Insert A-frame gable supports (Part L) into top of corner stands (Part C and Part D) and center stands (Part G). Slide ends of tubing down as far as possible.

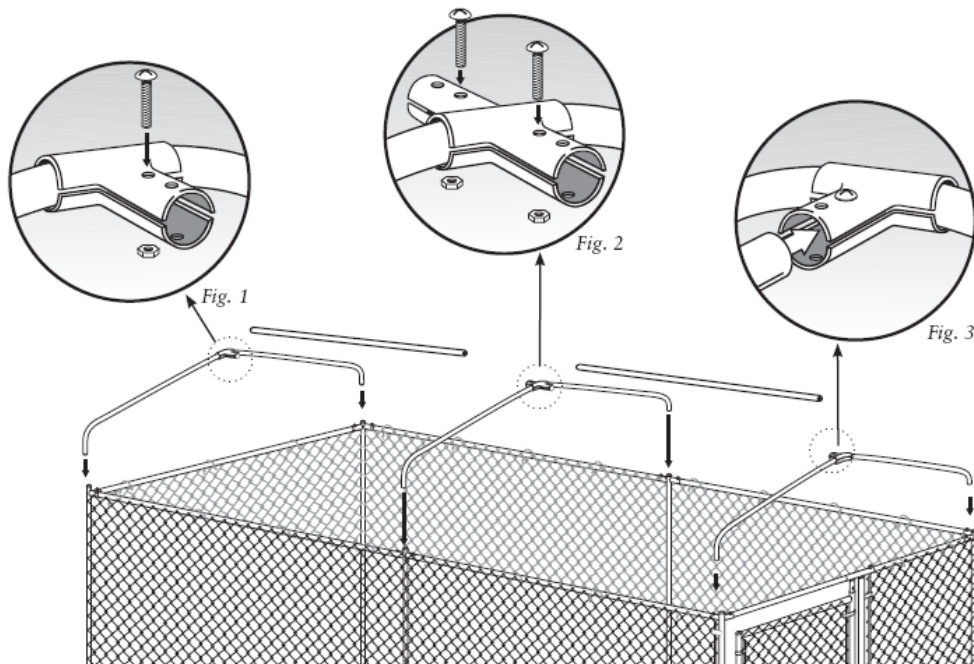

STEP #2

Install the two-way end clamps (Part M) at the center of each A-frame gable support (Part L) that rests on corner stands (Figure 1). If installing on a 10' or 15' long kennel, install three-way center clamp (Part N) at the center of A-frame gable supports that rests on center stands (Figure 2). Center ridge pole (Part O) between A-frame gable supports and tighten (Figure 3).

STEP #3

Unfold kennel cover material and drape over kennel cover frame. Secure with elastic tie downs (Part P - not shown).

Hint! Avoid over stretching the tie downs as it could cause damage to grommets.
